EDUCATION

- University of Information Technology - UIT**

Information Technology; Senior; GPA: 7.64

Ho Chi Minh City

Aug. 2020 – Aug. 2024

OVERVIEW

I have knowledge of Clean Code Principles and experience using Git to manage source code and participate in team projects throughout my academic journey. I have had opportunities to estimate project timelines, manage tasks using Trello, and write project documentation. Additionally, I have worked on cross-platform mobile applications using Flutter and developed web applications with TypeScript and ReactJS during academic projects and internships. I also have experience in server development with ExpressJS and NestJS to support these applications. In the future, I wanna become a software engineering expert and take on the position of Project Manager.
